A light collection of symbolic creations inspired by Geometry. Light is treated as matter taking an archetypal form, yet it preserves its subtle character. Mariza’s philosophy lies in the everlasting effort to introduce in everyday objects magic, renegotiating the relation between light and spiritual light. The luminaires are build to order and handcrafted in Greece.

MARIZA GALANI  
LIGHT GEOMETRY

Mariza Galani is an Athens-based lighting designer. Her light creations are inspired by the triangle; the world’s distinguished symbol of divinity. Mariza uses shapes, not only to form lights that serve through their functionality, but have as an ultimate goal to achieve higher harmony through their geometry. It is in observing, that the shapes reveal their mysticism and elevate out spirit. Her slow process of constructing each and every luminairy encompasses all inner energy that flows freely through hands to the objects and breathes life into her unique creations.

*HIERARCHY\_* This lighting, taking inspiration from the world's most distinguished symbol of divinity, the triangle, creates an interesting effect between light and shadow generating the feeling of mental uplift to the viewer. A two-piece handcrafted wall light scone composed of a white wall spot producing a precise right angle grazing the surface and a two faced matt brass triangle, that serves as an equilateral obstacle to block the light. *Suitable for drywall.*

*PANTHEISM\_* The beams of light, simulate the natural phenomena bringing them indoors, endowing us with the feeling of wholeness. A two-piece handcrafted wall light element composed of a white wall spot that produces a right angle grazing the surface and a textured glass arc underlined by matt brass. Through its simple form this unadorned lighting beams an incredible sophisticated light spreading a sense of divinity. In this case the light defines the lighting fixture and not the other way around. *Suitable for drywall.*
